DOCUMENT RESUME

ED 288 264 EA 019 786

AUTHOR	Cook, Richard P.; And Others
TITLE	Directory of Public Elementary and Secondary Education Agencies. Fall 1986.
INSTITUTION	Center for Education Statistics (OERI/ED), Washington, DC.
REPORT NO	CS-87-374
PUB DATE	86
NOTE	252p.
AVAILABLE FROM	Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (Stock No. 065-000-00320-1; $13.00).
PUB TYPE	Reference Materials - Directories/Catalogs (132)
EDRS PRICE	MF01/PC11 Plus Postage.
DESCRIPTORS	*Agencies; Education Service Centers; *Elementary Secondary Education; Government Publications; National Surveys; *Public Schools; Regional Schools; *School Districts; State Departments of Education; State Schools

ABSTRACT

Derived from data collected from state education agencies, the directory lists all reported education agencies in the nation and provides basic information about each agency. The introduction contains statistical highlights and three summary tables. A complete entry for an agency includes street and mailing address, county, grade span, number of schools, and metropolitan status. Presented in alphabetical order by type within state and outlying areas are: (1) regular school districts including supervisory union components; (2) supervisory union administrative centers; (3) regional education service centers; (4) state operated agencies; (5) federally operated agencies; and (6) other type agencies. Definitions are provided. Regular school districts and component districts of supervisory unions, with 15,738 being reported, represent the single largest type of agency category and account for 92.3 percent of all reported agencies. State education agency addresses are listed in the appendix. (MLF)

Acknowledgments

Common Core of Data Coordinators, designated by the Chief State School Officers as Official State liaisons with the Center for Education Statistics (CES), are the primary providers of information presented in the document. The 1986 Directory of Public Elementary and Secondary Education Agencies could not have been developed without substantial efforts by these Coordinators. There are others in each State who spent hours assisting the Common Core of Data Coordinators in presenting the information to CES. Although we cannot list the names of all of these people, we wish to thank them for their invaluable assistance.

Below is a list of all Common Core of Data Coordinators and Chief State School Officers. A list of State education agency addresses is presented as an Appendix to this Directory.

State	Common Core of Data Coordinators	Chief State School Officers
Alabama	Bill Rutherford	Wayne Teague
Alaska	Loraine Glenn	William Demmert
Arizona	Annette Berger	C. Diane Bishop
Arkansas	Robert Shaver	Tommy Venters
California	J. Vincent Madden	Bill Honig
Colorado	Jo Ann Keith	Calvin M. Frazier
Connecticut	David Cleaver	Gerald N. Tirozzi
Delaware	Robert Boozer	William B. Keene
District of Columbia	David Huie	Floretta McKenzie
Florida	Lavan Dukes	Betty Castor
Georgia	Eugene Wallace	Werner Rogers

Appendix

State Education Agency Addresses 261

Introduction

One of the major responsibilities of the Center for Education Statistics (CES) is to report on the condition of public elementary and secondary education in the United States. To do this, CES collects from State education agencies information about the universe of schools and education agencies in the 50 States, the District of Columbia and the six outlying areas.

Information on the universe of schools and education agencies is collected annually on the Center's Common Core of Data (CCD) surveys. The surveys include information such as name and address of the school and education agency and basic statistics such as number of schools per agency, student enrollment, and number of teachers.

The surveys are completed from administrative records of the State education agencies by Common Core of Data Coordinators who are designated by their Chief State School Officers as official State liaisons with the Center for Education Statistics.

The 1986 Directory of Public Elementary and Secondary Education Agencies is derived from the CCD Local Education Agency universe data collection of November, 1986. The directory lists all reported education agencies in the Nation, and provides basic information about each agency.

As of November, 1986, there were 17,046 public elementary and secondary education agencies reported, including: 15,343 regular school districts and supervisory union components; 1,029 regional education service agencies and supervisory union administrative centers; 197 State-operated agencies; and 277 other agencies including those which are Federally operated.

The number of public elementary and secondary education agencies across States and outlying areas varies from 1 agency each in Hawaii, the District of Columbia, and the outlying areas of the United States, to 1,112 in Texas. While a national total of the number of elementary and secondary schools in all States cannot be calculated from the November report, State totals for the current year were reported for all but twelve States and are reported in the Directory. The prior year's totals (1985-86) were available and are included for ten of the States. There were approximately 87,000 schools in 1985-86.

Statistical highlights and summary tables are presented on pages xiii through xx of the Introduction. Table A shows the total number and types of agencies and the number of schools by State. Table B presents the number of agencies in each State by grade span of students served. Table C presents frequency counts and percentage distributions of operating schools in the universe of elementary and secondary agencies.

Beginning with page 1, the Directory presents a listing of education agencies in alphabetical order by type within State and outlying area. The agency types, in order of presentation, are: (1) regular school districts including supervisory union components; (2) supervisory union administrative centers; (3) regional education service agencies; (4) State-operated agencies; (5) Federally operated agencies; and (6) other type agencies. (Definitions of the types are included below.) Information given for each education agency consists of: name, mailing address, county, grade span and number of schools.

Definitions of Types of Agencies

- Regular school districts operate elementary and/or secondary schools and sometimes include special and vocational education in a comprehensive educational setting. In some cases, these education agencies contract with other agencies to provide services rather than operating schools themselves.

- Supervisory union administrative centers are agencies which provide administrative services for a group of small school districts. For States in which this function is performed by the offices of the county superintendents, these offices are listed.
- Regional educational service agencies (RESA) provide special services to other public elementary and secondary education agencies. If county superintendents' offices perform these functions, these offices are listed.
- State-operated agencies which operate elementary and secondary education programs are listed if reported by CCD Coordinators.
- Federally operated agencies which operate elementary and secondary education programs are listed if reported by CCD Coordinators.
- Other agencies which operate elementary and secondary education programs are so designated by State CCD Coordinators who determine that no other type designation is appropriate.

Using the Directory

A complete entry for an agency includes the following information:

- Name
- Street address
- City of mailing address
- State of mailing address if different from location
- ZIP code of mailing address
- County
- Grade span
- Number of schools
- Metropolitan status (central city, other MSA, non-MSA)
- Supervisory union ID code if applicable

Name of Agency

This column provides the names of education agencies providing free public elementary and secondary education, listed in alphabetic and/or numeric order, by type of agency, within State or State-level jurisdiction.

Street Address

This is the post office box number, rural route number, or the building's block number and name of the street where mail to the agency should be addressed. Here, as in other sections providing location information, the mailing address may not correspond with the actual physical location of the agency and may even be in a State other than that served by the agency.

City of Mailing Address

This column provides the name of the city which is used in the mailing address of the agency's chief executive officer.

State

The States in which the agencies are physically located are identified in the upper-left-hand corner of each page; therefore, the State is not listed in the tabular entries. If a State name abbreviation appears in this column, then the mailing address of the agency is located in the State listed rather than in the State actually served by the agency. The street address, the city of mailing address, and ZIP code agree with this convention.

Name of County

The entry in this column is the county where the chief executive officer of the agency maintains his/her operational base.

Grade Span

The entries of this column identify the lowest and highest grades actually served by the agency in the range from prekindergarten (PK) through grade twelve (12). Entries of zeros (00-00) imply the absence of instructional programs; Special symbols identify programs which are entirely ungraded (UG-UG) or serve those with special educational needs (SP-SP).

Number (of) Schools

This entry is the aggregate number of schools operated by the agency as reported by the State Education Agency.

Metro Status

This column presents a single-digit code which relates to the location of the agency with reference to one of the 329 Metropolitan Statistical Areas (MSA) determined by the Bureau of Census during the 1980 Decennial Census. The three codes used are:

1--The agency serves a Center City of a MSA.
2--The agency serves a MSA but not its Central City.
3--The agency is not located in a MSA.

Supervisory Union

Where administrative services are performed for more than one education agency by a common superintendent, a supervisory union is formed. The individual education agency elements are known as the components of the supervisory union; whereas, the superintendent's operational base is termed the supervisory union administrative center in this *Directory* despite the fact that terminology varies among reporting State education agencies. For example, in the State of Nebraska the county superintendent provides administrative services to all school districts within his county that have less than seven teachers. In that State the supervisory unions are called "county administered systems" under the county superintendent.

In this *Directory*, the administrative center and all related components of a supervisory union are identified by a three-digit code number common to all of them. However, as a consequence of organizing the agency listings in alphabetic order within type of agency, the components of a single supervisory union will be scattered throughout the total listing of agencies within any given State.

Statistical Highlights and Summary Tables

Education Agencies by Type by State

The number of education agencies, distributed by type and number of schools by State and outlying area, are reported in Table A.

- Of the 17,046 total education agencies reported in the fall of 1986, 5,880 or (34.5%) are located in just six States: California (6.8%), Texas (6.5%), Nebraska (6.1%), Illinois (5.8%), Ohio (4.7%) and New York (4.5%).
- There are eight States and outlying areas which report a single elementary/secondary agency: American Samoa, District of Columbia, Guam, Hawaii, Northern Marianas, Puerto Rico, Trust Territory of the Pacific, and Virgin Islands.

Table A.--Education agencies by type, and number of schools, by State and outlying area -- fall 1986

*Number of schools for these States from 1985-86 education agency universe.
--- indicates data unreported at time of publication.

- Twelve additional States report fewer than 100 education agencies: Alaska, Delaware, Florida, Louisiana, Maryland, Nevada, New Mexico, Rhode Island, South Carolina, Utah, West Virginia, and Wyoming.
- The 20 States and outlying areas with fewer than 100 education agencies reported a total of 663 agencies which account for 3.9% of all public elementary and secondary education agencies.
- A total of 82 Federally operated and other agencies were reported in 10 States. These accounted for 0.5% of all education agencies.
- Sixty-eight percent of the Federally operated and other agencies were reported by the State of New Hampshire.
- A total of 197 State-operated agencies were reported in 28 States and outlying areas. These are approximately 1.2% of the total education agencies.
- Kentucky, with 76 State-operated agencies, accounts for 38.6% of the agencies of this type.
- There were 1,029 regional educational service agencies and supervisory union administrative centers accounting for 6.0% of the total education agencies.
- Six States accounted for 50.3% of the total of regional education service agencies and supervisory union administrative centers: Nebraska (10.9%), Pennsylvania (9.4%), Ohio (8.9%), Montana (7.8%) Minnesota (6.8%) and California (6.5%). A total of 1,029 education agencies of this type were reported by 31 States.
- Regular school districts and component districts of supervisory unions, with 15,738 being reported, represent the single largest type of agency category and account for 92.3% of all reported agencies.

Education Agencies by Grade-Span Pattern by State

The agencies which constituted the universe of elementary and secondary agencies during the fall of 1986 displayed a vast diversity of patterns of lowest to highest grade levels spanned by their instructional/support service programs. Forty-six different patterns were revealed, of which the 16 most common are displayed in Table B. There are five additional column headings in Table B which require explanation:

(1) 00-00: This designation identifies agencies which have no responsibility for instructing students. The most prevalent of these are supervisory union administrative Centers, special-purpose agencies which provide the services of a common superintendent of schools and business manager to clusters of small agencies.

(2) UG-UG: This category is used to indicate that all of the students of an agency are ungraded. This is typically the case with regional educational service agencies (RESA).

(3) SP-SP: If all of the students of an agency are enrolled in special-education programs, this designation is utilized.

(4) ??-?? When the actual grade-span served by an agency was unreported by the State education agency (SEA), the symbol consisting of four question marks was used.

(5) OTHER: This heading represented the aggregation over all other grade-spans not shown in Table B. There were a total of 46 "Other" patterns distributed over 139 agencies.

Of all grade-span ranges reported for the 16,439 agencies where such ranges were known by reporting SEAs, 3 accounted for 77.8% of the total: KG-12 (42.1%), PK-12 (22.8%), and KG-08 (12.9%).

- States which reported ten or more grade-span patterns were California, Connecticut, Maine, Minnesota, New Hampshire, New Jersey, North Dakota, Oklahoma, Oregon, Texas, Vermont, and Washington.
- The least diverse States and outlying areas, with each reporting only one grade-span pattern, were Florida, Hawaii, the District of Columbia, Puerto Rico, American Samoa, Guam, Virgin Islands, Northern Marianas, and the Trust Territories of the Pacific.

Education Agencies by Number of Schools Operated

Table C reports frequency counts and percentage distributions of reported numbers of operating schools in the universe of elementary and secondary education agencies. In consequence, the maximum cumulative frequency for Elementary/Secondary agencies which appears in Table C, 16,819, differs from the total number of agencies shown in Table A and Table B, 17,046. The value 16,819 is utilized in the calculation of all percentages associated with Table C. The number of schools in 227 agencies was not provided by the reporting agency.

- No schools were operated by 764 or 4.5% of the agencies. Some of these agencies are responsible for providing instruction to resident students who are transferred to other agencies as tuition-paid students.
- Approximately 59.5% of the agencies operate 1, 2, or 3 schools and about 90% of them operate 9 or fewer schools each.
- Forty-seven agencies operate 100 or more schools. Of these, 18 agencies operate 150 or more schools.
- The largest number of schools in a single district (Puerto Rico) is 1,705.

Table C. Numeric and percentage distribution of operating schools in the universe of elementary and secondary education agencies -- fall 1986

Number of operating schools	Elementary/secondary agencies				Number of operating schools	Elementary/secondary agencies
